

PRODUCT CHANGE NOTICE

FIRMSuite®

Multitel is pleased to announce the release of the new version 5.3.5 of FIRMSuite.

Get up to speed by upgrading your software to get the newest features providing better management and optimization of your space.

NEW FEATURES

MAIN ENHANCEMENTS

(BMM-1319) Usage Enhancement: Implement a new calculation method for rectifier usage with C-Rate

(BMM-1128) Inspection Checklist: Modify email messages

(BMM-889) DGM Form: Separation of active and historic reports in the report list

(BMM-1393) DGM: Add permission management in the application in the template for specific user types

(BMM-1396) Auto-binding tool: Now supports Franklin Electric BMS

(BMM-1322) BMM: Enable creation of planned/unplanned maintenance without a work order

(BMM-1297) PM Form: Fix label error in location indication when saving

(BMM-1274) Batteries Panel: Automatically fill "N/A" when selecting "Never Required" in the right panel

BUG FIXES

(BMM-1392) Report, Battery Replacement Template: Fix error in StringCost, ensuring accurate replacement cost

(BMM-1387) Maintenance Creation: Prevent the creation of duplicate maintenance when clicking on Maintenance with an active maintenance

(BMM-1384) Business Rules Notifications: Ensure table updates correctly to not show equipment that has been deleted

(BMM-1381) Inspection Checklist: Resolve performance issues preventing report generation

(BMM-1305) Inspection Checklist: Include a number entry field for the Ambient Temperature format cell

(BMM-1321) Batteries Panel: Incorrect display of values related to maintenance for some sites

(BMM-1317) BMM: Ensure reference values for intercell baseline are displayed in maintenance (planned or unplanned)

(BMM-952) Maintenance Reminder Pop-up: Correct labeled error
